DETAILED ACTION

In view of the appeal brief filed on August 13, 2009, PROSECUTION IS HEREBY REOPENED. New grounds of rejection are set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

- (1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,
- (2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 4 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim recite language such as "so that the latter" which is unclear, because the latter could be interpreted as referring to the code or the ID.

3. Claims 4 and 15 recites the limitation "the activation" in line 5. There is insufficient antecedent basis for this limitation in the claim.
4. Claims 4 and 15 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

Claims 4 and 15 does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass.

The claims are narrative in form and replete with indefinite and functional or operational language. The steps which make up the method must be clearly and positively specified. The steps must be organized and correlated in such a manner as to present a complete operative method (e.g. transmitting, receiving, allocating...).

Response to Arguments

1. Applicant's arguments, see appeal brief, filed 08/19/2010, with respect to the rejection(s) of claim(s) 2-17 under 102 (b) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Luebke et al (USPPA 2005/0086366).
2. Claims 4 and 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
3. Claims 2-3, 5-8, and 16-17 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Allowable Subject Matter

Claims 9-14 are allowed.
